CAREER OBJECTIVE

I am motivated to contribute to a collaborative and professional environment by applying my attention to detail, adaptability, and strong sense of responsibility. Experienced in producing organized, reliable work while continuously learning, taking on new challenges, and supporting team goals to contribute to the organization’s success.

PROFESSIONAL EXPERIENCE

Team Leader
Boundless AI Inc.

November 2025 – April 2026

- Led and supervised a team of game testers, assigning tasks, monitoring progress, and ensuring deadlines and quality standards were consistently met.
- Coordinated testing activities, tracked team performance, and reported key findings and issues to improve overall workflow efficiency.
- Mentored team members by providing guidance, resolving challenges, and promoting collaboration to maintain a productive testing environment.

Game Tester
Boundless AI Inc.

November 2025 – April 2026

- Executed detailed testing on game features to identify bugs, glitches, and performance issues across different scenarios.
- Documented and reported defects clearly with steps to reproduce, helping developers diagnose and resolve issues efficiently.
- Evaluated gameplay functionality and user experience to ensure the game met quality standards before release.

INTERNSHIP EXPERIENCE

Quality Assurance Tester
Software Research Group (SRG)

2025

- Performed system testing for the GFMIC Finance Management System, identifying and reporting issues to ensure accuracy and reliability of financial processes.
- Conducted system testing and validation for the GFMIC Certificate Tool, ensuring accurate certificate generation and proper functionality.

Front-End Developer
Software Research Group (SRG)

2025

- Designed and implemented responsive user interfaces for the myPUPQC AI System, enhancing usability and overall user interaction.
- Developed and optimized user interface components for the ARIMA Student Information System (SIS), improving usability and accessibility for users.
